

"BIG BREEZE"

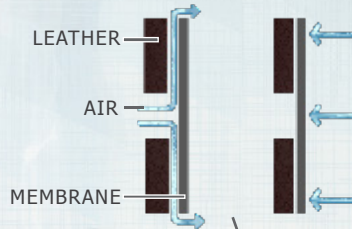

Intelligent WORK BOOTS

VIBRAM® FIRE & ICE™ SOLE & TOE BUMPER

EASY CLEAN TREAD / SHOCK ABSORBING OIL & PETROL RESISTANT / MADE FOR EXTREME COLD AND HOT CONDITIONS.

AIR TRAP-VALVES

THE 1ST INTELLIGENT WORK BOOT! HOW DOES IT WORK?

THE INTELLIGENT WORK BOOT DEPENDS ON THE WEATHER. THE BOOT MATERIAL BECOMES STIFFER IN COLD TEMPERATURES ALLOWING LESS AIR TO CIRCULATE INTO THE BOOT, AND SOFTENS IN HOT TEMPERATURES, ALLOWING THE MAXIMUM AIR TO FLOW INTO THE BOOT, KEEPING YOU COMFORTABLE AT ALL TIMES.

FRESH AIR ENTERS

WHEN PRESSURE IS PLACED ON THE TOE OF THE BOOT, THE AIR TRAP-VALVES OPEN, ALLOWING FRESH AIR TO ENTER THE BOOT.

THE HEEL EXPANDS PULLING AIR IN.

HUMID AIR OUT

WHEN PRESSURE IS APPLIED TO THE HEEL OF THE BOOT, THE AIR TRAP-VALVES CLOSE, FORCING THE HUMID AIR WITHIN THE BOOT TO CIRCULATE OUT THROUGH THE HONEYCOMB MESH.

THE HEEL COMPRESSES PUSHING AIR OUT.

REINFORCED ALONG THE SIDES FOR MORE STABILITY

METAL FREE PROTECTION

COMPOSITE PROTECTIVE TOE & POLYMER ANTI-PERFORATION INSOLE

Boot Meets:

★ CSA GRADE 1 EH / WITH ELECTRICAL SHOCK RESISTANCE

★ ASTM F2413-11 (M I / 75 C / 75 EH PR)

REINFORCED MESH WITH

KEVLAR®
